EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In reference to independent claim 1, line 9, the line should read as followed,

'a request-related information activation unit configured to create *and activate a new*'

In reference to independent claim 15, line 21, delete the words 'with which' and replace with the word 'including'.

In reference to independent claim 23, line 21, delete the words 'with which' and replace with the word 'including'.

REASONS FOR ALLOWANCE

2. Claims 1, 3-5, 9-15, 17, 18, 20-23, and 25 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter. The prior art, US Patent Publication No. 2003/0140115 to Mehra, teaches virtual directories which provide a mechanism for automatically changing the root folder from the default web application root document folder to a virtual directory or folder in response to a request. Further, Mehra teaches that, if a matching virtual directory is found in the configuration file, then the system determines the resource location using the virtual directory, and if the virtual directory

fails or terminates, then the system returns a null or 'not found' message unless the virtual directory has been installed. The root folder methods of Mehra fail to teach or suggest an 'activation unit configured to create and activate a new root document folder within the hierarchical organization of information, the root document folder corresponding to the document path of the request-related information item of the request, in the user profile, upon determination that the root document folder does not exist in the user folder'. The method as claimed within independent claims 1, 14, 15, 23, and 25 as stated above would not have been obvious to one of ordinary skill in the art at the time the invention was made to have modified the reference to Mehra to come up with applicant's claimed invention.
